

1950s-era baggage cart in 1:29 scale

Drawings by Russell D. Porter

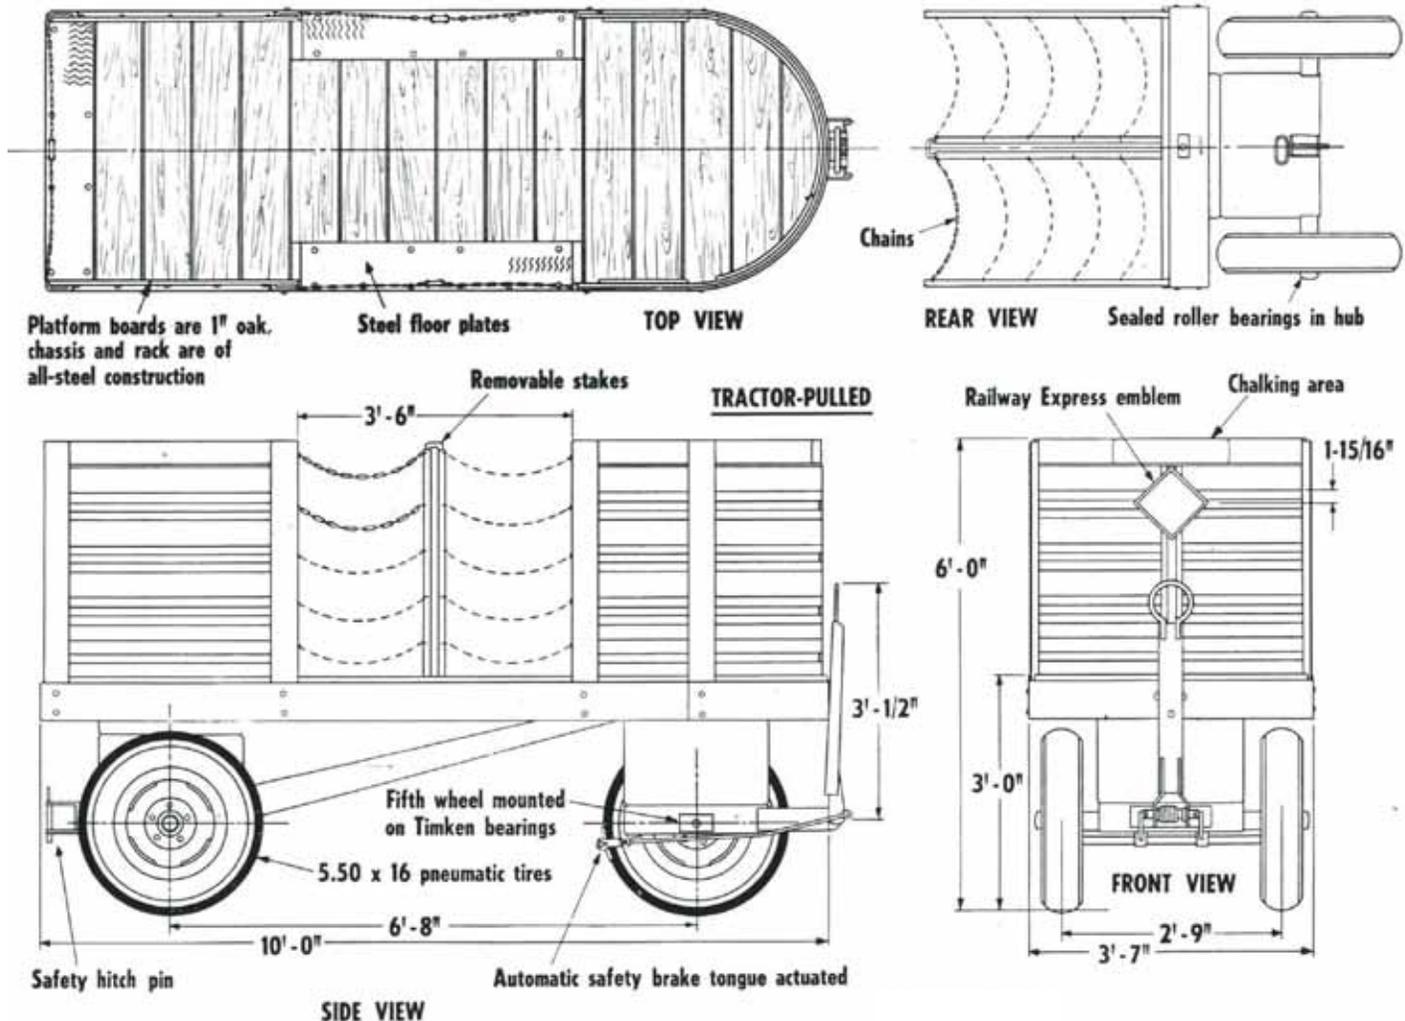

Reproduced from the August 1955 issue of *Model Railroader*

Baggage carts are familiar items on the platforms of all but the smallest railroad stations. Presented here are drawings for carts that were modern in the 1950s and would be right at home on just about any post-war railway. These carts came with pneumatic tires for tractor pulling (often in multiples) or with hard-rubber tires for individual hand pulling.

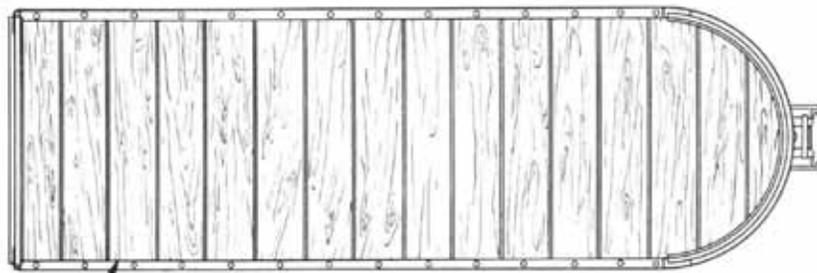

Drawings are full size for 1:29 scale

Are you working in a different scale?	1:32 scale	91%
	1:24 scale	121%
If you're not working in 1:29 scale, print the drawings out at the percentage given below for your scale.	1:22.5 scale	129%
	1:20.3 scale	143%
	1:19 scale	153%
	1:13.7 scale	212%

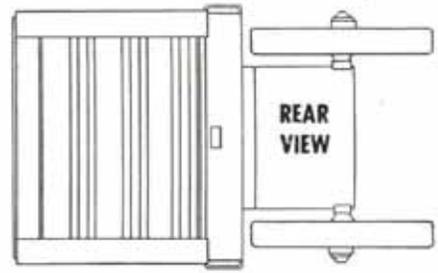

This is an online supplement to the August 2013 issue of *Garden Railways* magazine. To purchase previously published paper plans, see the list of those available at www.sidestreet.info

Platform boards are 3/4" oak, chassis and rack are of all-steel construction
