455 oil derrick

397 diesel-type coal loader
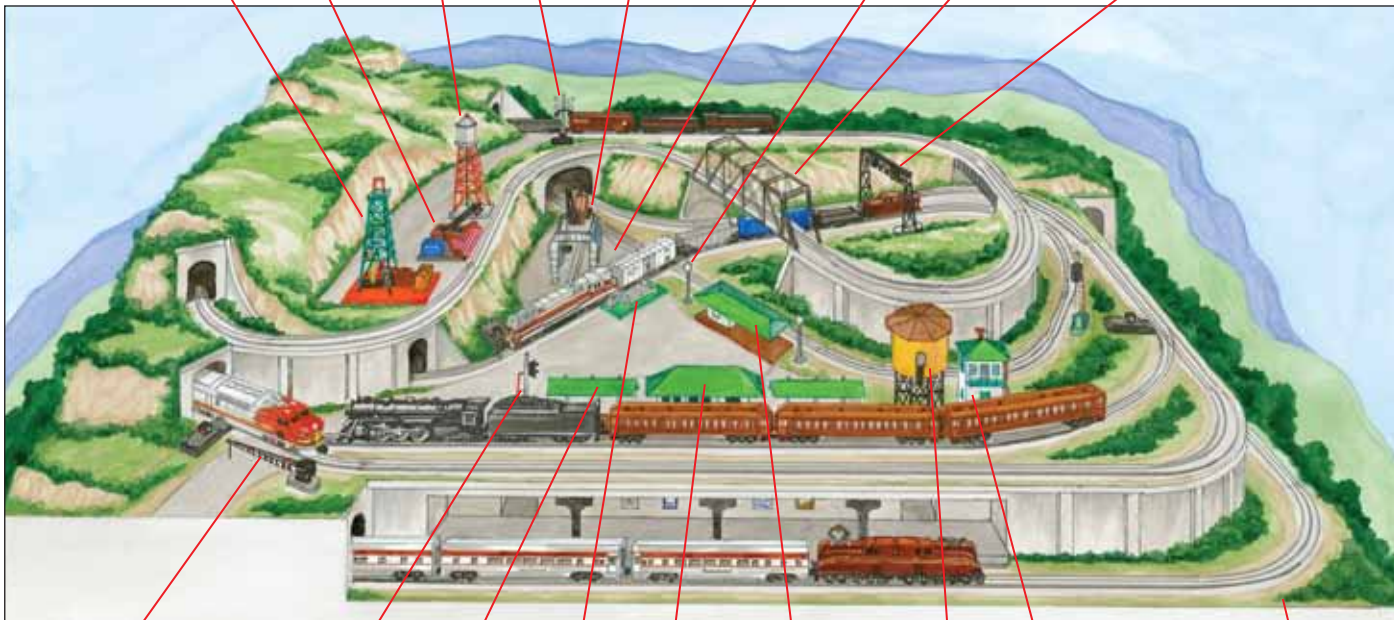

193 industrial water tower

154 automatic highway signal

282 portal gantry crane

Accessories requiring some handling, such as the milk platform and gantry crane, are placed within arm's reach

71 lamp post (2)

317 trestle bridge

450 signal bridge

252 crossing gate

153 block signal (2)

157 station platform (2)

3462P milk platform

132 passenger station

356 operating freight station

138 water tank

445 operating switch tower

There isn't much space on the layout to locate a control panel. Consider building or purchasing a shelving unit to house transformers and accessory controllers below the lower level
