

Lionel no. 12906 maintenance shed

Lionel no. 12905 factory

MTH no. 30-90079 Pittsburgh Brewing Co.

Lionel no. 16874 coaling station

Broad O-72 and O-84 curves along the main line provide ample room for scale locomotives and long trains to stretch out

24'-0"

MTH no. 30-11030 signal bridge

MTH no. 30-9031 switch tower

MTH no. 30-11030 signal bridge

This 4 x 8-foot stand-alone layout segment offers an ideal starting point. The parallel mainline tracks are common to modular and sectional layouts, but the junction and trackside industries add both visual and operating interest

20'-0"

MTH no. 30-90024 Thomas & Sons Feed

Lionel no. 37960 burning switch tower

MTH no. 30-9014 passenger station

Lionel no. 12968 girder bridges (2)

A 48-inch aisle is required to remove stand-alone section(s) from room

Need more space to store the long trains suited for this layout? Here's an ideal spot to add hidden staging below the yard.

MTH no. 30-11040 sanding tower

Lionel no. 22953 Linex oil tank, tall (3)

MTH no. 30-11037 fuel column
