

# Garden RAILWAYS®

## 2009 Index

February  
(26/1)

April  
(26/2)

June  
(26/3)

August  
(26/4)

October  
(26/5)

December  
(26/6)

This index was compiled to assist the reader in finding information in the 2009 issues of *Garden Railways* magazine. It covers six issues, from February 2009 through December 2009. There are hundreds of entries, cross-referenced by article title, author's name, and subject.

### Using the index

All categories are delineated as follows:

- The **AUTHOR'S NAME** is in capital letters. Below the author's name is a listing of his/her article(s).
- The **Article titles** are all in **boldface type** and are listed both under the author's name and alphabetically within the index.
- The Subject listings are all entered in plain type and may include subcategories.

At the end of each listing you will find numbers, such as 26/3 36. The first number is the volume; the number after the slash is the issue number; and the last number is the page on which the article begins. The above example would translate as volume 26 (2009), number 3 (June), page 36.

### The product-review index

Also included is a supplemental index of all products reviewed in *GR* during 2009. It is cross-referenced by the type of product and the manufacturer. The manufacturer's name is in **boldface type**, and the products are in plain type. Volume and issue numbers follow each entry.
