

Garden RAILWAYS®

2013 Index

February
(30/1)

April
(30/2)

June
(30/3)

August
(30/4)

October
(30/5)

December
(30/6)

This index was compiled to assist the reader in finding information in the 2013 issues of *Garden Railways* magazine. It covers six issues, from February 2013 through December 2013. There are hundreds of entries, cross-referenced by article title, author's name, and subject.

Using the index

All categories are delineated as follows:

- The AUTHOR'S NAME is in capital letters. Below the author's name is a listing of his/her article(s).
- The **Article titles are all in boldface type** and are listed both under the author's name and alphabetically within the index.
- The Subject listings are all entered in plain type and may include subcategories.

At the end of each listing you will find numbers, such as 30/3 36. The first number is the volume; the number after the slash is the issue number; and the last number is the page on which the article begins. The above example would translate as volume 30 (2013), number 3 (June), page 36.

The product-review index

Also included is a supplemental index of all products reviewed in *GR* during 2013. It is cross-referenced by the type of product and the manufacturer. The manufacturer's name is in **boldface type**, and the products are in plain type. Volume and issue numbers follow each entry.
